INSTRUCTIONS

CAPIT Master

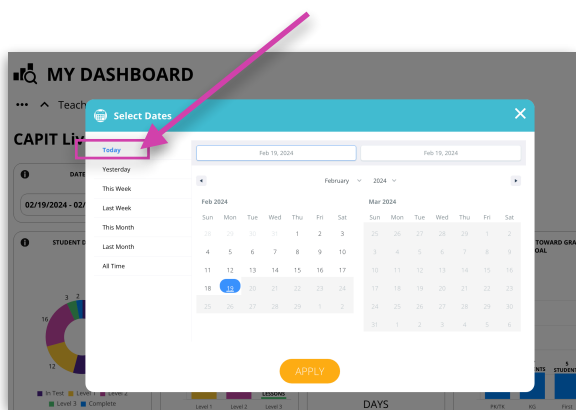

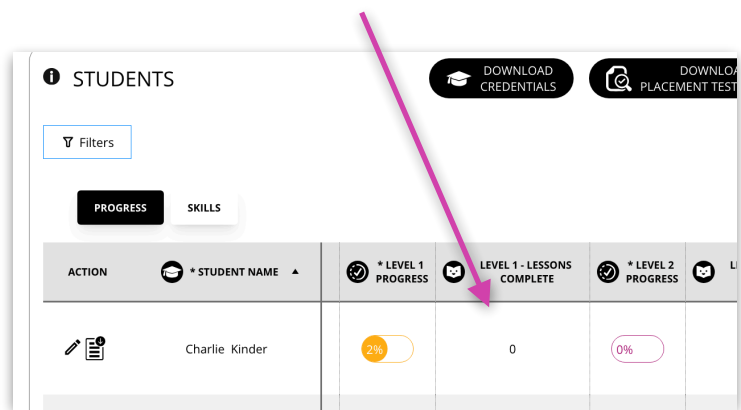

(Fig. 1)

(Fig. 2)

We created a **Daily Chart** to help motivate your students to complete multiple lessons each day in CAPIT. Please print these charts and give them to your students. Students should fill in a star after completing a lesson. The goal is to ensure your students are motivated to complete multiple lessons daily.

To double-check your students' daily progress, log into your Teacher Dashboard, click the **Date Range** (found on the top left of the Teacher Dashboard), and choose **Today** (Fig. 1). You will then see how many lessons your students completed on that day (Fig. 2).
